

Science Olympiad Mentor Contract

****PURPOSE****

Thanks for choosing Science Olympiad as one of your volunteer experiences! This will provide an opportunity to explore your love of science while mentoring younger students in the field. A contract has been developed in order to ensure a safe, productive, successful, and enjoyable middle school co-curricular.

I, _____, agree to be a mentor for the _____ (middle/high) School *Science Olympiad Team*.

In doing so, I will be **honest, truthful, and conduct myself in a manner to reflect credit upon my school and community** at all times. I must have the willingness to *cooperatively work* with groups of (middle/high) school students and other mentors to benefit the team as a whole. I understand that with my knowledge and experience in the science field and/or Science Olympiad, I am a role model for the students on the team. I will not be doing things **for** students, but rather **with** the students. I will be a facilitator, helper, guide, and a teacher in order to lead the team to success.

My attendance to Science Olympiad meetings is extremely important to the team's success. I understand that I need to set up a volunteer schedule. If I must be absent on a planned mentor day, I **promise to contact** the coach prior to the meeting.

I understand that I should be **maintaining a C in Science** and a 2.5 grade point average without failing any classes. If I cannot meet this expectation, I am aware that _____ (coach(es)/guidance counselor) will schedule a meeting with me to discuss this.

I understand that my role as a mentor is important and affects all those involved in this co-curricular. ***My focus and dedication to mentoring will contribute to the success*** of the team.

If I do not abide by any portion of this contract, I may be subject to losing this opportunity to volunteer.
